Re: Announcement of Planned Action

Dear Mr. Sanchez, and the Connecticut DOL Rapid Response Unit:

This letter is being issued in accordance with the Worker Adjustment and Retraining Notification Act (WARN). The Guida-Seibert Dairy Company (the “Company”) has decided to completely close its facility located at 433 Park St., New Britain, CT 06051 (the “New Britain Facility”). This entire plant closure of the New Britain Facility is expected to be permanent.

The employment of employees at the New Britain Facility will be terminated in multiple successive phases. The Company expects the first phase of employment terminations will occur on July 20, 2026, or within a fourteen (14) day time period commencing on that date. In total, this action will affect 205 employees at the New Britain Facility. The Company presently contemplates the closure of the New Britain Facility will be completed on or before August 31, 2026.

There will not be any bumping rights for affected employees—that is, employees will not be able to displace more junior employees out of their job positions as a result of this facility closure. Any other information which may be required by law is maintained onsite.

You may contact me for further information. My name, address, and telephone number is below.

Sincerely,

Josh Gravalec
Human Resources Manager, The Guida-Seibert Dairy Company
